CONFERENCE 2019

*Improving health through education*

**Saturday 11 May**

**The Grand Hyatt, Melbourne**

FOR GENERAL PRACTITIONERS ONLY

LIMITED PLACES AVAILABLE  
**REGISTER NOW!**

## YOUR INVITATION

**It is my pleasure as Medical Director to be able to invite you to the 2019 annual Dorevitch Pathology Men's Health conference, now in its 11th year.**

As usual, this highly relevant educational day brings together General Practitioners, Surgeons, Specialist Physicians and Pathologists, in an exclusive environment to learn and discuss pertinent topics to men's health.

We offer our thanks to our line up of exceptional speakers on this program, for providing their insights, experience and time.

Once again, due to its continued popularity, we will be using the interactive application to help facilitate understanding and discussion of the topics presented.

The program will be submitted to the RACGP and ACRRM for accreditation as a Category 2 (RACGP) event.

We look forward to welcoming you to this unique conference.

### **Dr Philip Kostos**

Medical Director & Histopathologist  
Dorevitch Pathology

## CONFERENCE SPEAKERS

**Associate Professor Harry G Mond** OAM MBBS MD PhD FRACP

Cardiologist, Royal Melbourne Hospital

Dr Harry Mond is an Associate Professor at Melbourne and Monash Universities with an interest in cardiac pacemakers, electrocardiography and Holter monitoring. Dr Mond runs the pacemaker clinic at the Royal Melbourne Hospital, is in private practice and Medical Director of Cardioscan Pty Ltd.

**Dr Simon Rice** BBSc BSc (Hons) GradCertClinEpi MPsych PhD  
Psychologist, Orygen Youth Health

Dr Simon Rice is a Senior Research Fellow and Clinical Psychologist. He leads Orygen's young men's mental health research stream where he is developing new ways to engage and support young men experiencing mental ill-health. He has broad research interests stemming from his clinical and consulting work across the youth mental health and elite sports sectors.

**Dr Melody Caramins** BMed PhD FRCPA FFSc (RCPA)  
Pathologist in Charge, Genomic Diagnostics

Dr Melody Caramins is the National Head of Genetics for Dorevitch Pathology and Specialist Diagnostic Services. Her special interests include prenatal genetics, adult-onset disorders including oncogenetics and neurogenetics; implementation of novel diagnostic methodologies and bioinformatics.

**Associate Professor Leslie Sheffield** MBBS Msc FRACP HGSA Cert Clin Genet  
Medical Director, myDNA

A/Prof Les Sheffield has over 30 years of experience as a qualified Clinical Geneticist. He established clinical genetics services in South Australia, is a previous Director of Genetics Clinics at The Royal Women's Hospital and a senior Genetics Consultant at The Royal Children's Hospital and Monash Medical Centre in Victoria. He has also pioneered pharmacogenomic testing and education Australia wide.

**Mr James Lim** MBBS FRACS  
Colorectal Surgeon, Monash Health

Mr James Lim is a colorectal surgeon as well as holding an Adjunct Lecturer appointment at Monash University. He performs 3D endoanal/endorectal ultrasound, anal manometry and colonoscopy and has experience in the wide spectrum of common to complex anorectal procedures such as anal sphincter repair and perineal reconstruction. He operates at a number of private hospitals around Melbourne as well as Monash Health.

**Dr Walter Cosolo** MBBS FRACP  
Oncologist, John Fawcner Hospital

Dr. Walter Cosolo is a medical oncologist, malignant haematologist and palliative care physician who has worked in private practice for over 25 years. His special interests include genitourinary and hepatobiliary tumours while having experience with a wide spectrum of tumour-related disease.

**Mr George Koufogiannis** B.Sc (Hons) MBBS Grad Dip Surgical Anatomy FRACS (Urol)  
Urologist, Knox Private Hospital

Mr Koufogiannis completed his years of advanced training concentrating on urological cancers with focus on minimally invasive surgical techniques. In addition, he has extensive training on male voiding dysfunction, laser prostate surgery, and stone surgery. His fellowship year was centered on advanced laproscopy, implant surgery and open complex urological cancers.

**Dr Tasos Stavrakoglou** MB BS MD  
Dermatologist, Alfred Hospital

Dr Tasos Stavrakoglou spent many years working in London as a consultant dermatologist before relocating to Australia. During his career he has developed a special interest in skin cancer management and skin surgery, with additional interests Medical Dermatology and Men's Dermatology. He is also involved in public work where he is teaches dermatology trainees and medical students.
