The Grand Hyatt, Melbourne

FOR GENERAL PRACTITIONERS ONLY

LIMITED PLACES AVAILABLE

REGISTER NOW!

Your Invitation

It is my pleasure as Acting Medical Director to be able to invite you to the 2018 annual Dorevitch Pathology Men's Health conference, now in its 10th year.

As usual, this highly relevant educational day brings together General Practitioners, Surgeons, Specialist Physicians and Pathologists, in an exclusive environment to learn and discuss pertinent topics to men's health.

We offer our thanks to our line up of exceptional speakers on this program, for providing their insights, experience and time.

Once again, due to its continued popularity, we will be using the interactive application to help facilitate understanding and discussion of the topics presented.

The program will be submitted to the RACGP and ACRRM for accreditation as a Category 2 (RACGP) event.

We look forward to welcoming you to this unique conference.

Dr A. Sasha Jaksic

Acting Medical Director
Dorevitch Pathology
